

# Sustainability & Impact Statement

At Diamondvale Estate, we are committed to creating unforgettable guest experiences while caring for our environment and community. We prioritise eco-friendly practices, support local producers and artisans, and preserve our natural surroundings to ensure the Granite Belt remains a place of beauty for generations to come. Our goal is to leave every guest — and our region — better than we found it.

We support worthy causes both locally and in our guests' home regions through donations and in-kind contributions. As an accredited **Sustainable Tourism Business** under the **Quality Tourism Framework** and with completed **Emissions Reduction Program** commitments, we are dedicated to sustainable operations. Rachael's role as a board member of Granite Belt Wine & Tourism reflects our ongoing commitment to supporting and growing our region's tourism and local economy.

## Our Sustainability Commitment

**Environmental Care:** We embrace eco-friendly practices, from energy-efficient lighting and water-saving measures to recycling and reducing single-use plastics across the property.

**Local Sourcing:** Wherever possible, we source products, produce, and amenities from local artisans and suppliers to reduce our environmental footprint and support our regional economy.

**Natural Stewardship:** We maintain and nurture our grounds to protect native wildlife and promote biodiversity, creating a sanctuary where kangaroos, birds, and native flora thrive alongside our guests.

## Positive Community Impact

**Supporting Local Makers:** We proudly showcase local wines, food, and crafts in our welcome hampers and guest recommendations, helping visitors connect with the vibrant Granite Belt community.

**Cultural & Economic Contribution:** By partnering with local tour operators, restaurants, and artists, we create opportunities that benefit the broader region.

**Guest Education:** We encourage our guests to experience the natural beauty and heritage of the area while being mindful stewards of the environment.

Our vision is to create a place of rest and connection that leaves a positive imprint — not just on our guests, but on the land and community we call home. Diamondvale Estate is committed to ongoing improvement and innovation to ensure our estate remains a place where sustainability and hospitality go hand in hand.
